About The Workshop:

Designed to enhance any kind of smartphone photography, this workshop is perfect for business activities outside of regular work hours. Whether you're an enthusiast or just need simple solutions, I aim to improve everyone's photos.

Hands-On Learning: Participants will follow smartphone-adapted rules and techniques, practicing as they learn from the outset. Delegates are divided into pairs, with encouragement for notetaking and asking lots of questions.

Visual Materials: Top tips and visual aids are provided in each segment. Physical materials are used, eliminating the need for a projector.

Role-Play Exercise: Focused on documenting and promoting a business expo, this exercise can be customized to suit any event. Let me know in advance if you need a specific role-play for your business.

There are three segments with two 15-minute breaks:

- Using your phone's camera and editing controls
- Composition and finding engaging images
- Role-playing exercises for a business event scenario, including team shots

A brief section on using video is also included.

The workshop runs at your place of business for 2-3 hours, depending on group size.

Post-Workshop Support: After the workshop, each delegate receives a PDF of supporting notes and practical exercises to reinforce what they've learned.

Join me for a hands-on experience to elevate your smartphone photography skills!
